March 30, 2020

To our church family,

Choice Christian greetings. This has been a very difficult time for everyone. We all miss being together as the family of God, but it is with great joy that we can keep our fellowship and communication, first with The Lord and then to each other through media. Continue to pray that God's protection will be upon the family of God at Creekside and this virus will end in our nation and world. I'm happy to report that Duane and Beverly Durst are improving and are almost back to perfect health. Thank God there were no breathing complications and I believe that is due to the prayers of God's people. I am happy to report also that there have been no cases of Coronavirus detected in any of our church family. The number of cases is increasing in Amherst and Buffalo but we are claiming Psalm 91 for our family.

Thank you for keeping connected through the internet. We have had over 300 responses so far and believing that many others will tune in via the internet. We will have a service posted by Friday so that once again you can have church through our website. According to our President, social distancing must continue until the end of April. We may not be able to be together as a family until May 3 so we will continue our weekly webcast until we are able to meet together. For the April 12 webcast (which will be our Easter service), we will be taking communion together. Each family is requested to have the elements prepared while watching that webcast. It has come to my attention that the bills are amounting and the necessary have not come in, so if you are able to, send your tithe instead of holding it until we meet. It would be greatly appreciated. A great big hug (virtual) to the wonderful family of God.

Love in Christ,

A handwritten signature in dark ink, appearing to read "Charles Pezzino". The signature is fluid and cursive, with a large, stylized "P" at the end.
